WILL BE BIGGER

MORE PRIZES AND ADDED CLASSES TO COUNTY CONTEST.

AND IT WILL COST MORE

Corn and Domestic Science Contests Next Fall Will Have Added Features and Be On Bigger Scale.

A meeting of the Nodaway county agricultural and domestic science board of directors was held Tuesday afternoon in the office of County Superintendent Oakerson for the purpose of talking over plans for the annual boys' corn show and the girls' domestic science contest to be given in Maryville about the first of November. All of the boys and girls in the county are eligible. Those attending the meeting were Prof. Oakerson, Miss Hettie Anthony, Prof. John E. Cameron, James B. Robinson, George L. Wilfley, Joseph Jackson, Jr., and Paul Sisson.

The number of prizes in the different classes for the corn contest are to be increased, so the committee decided.

Another new feature will be added to the show, and they will offer prizes to be given on small grains, wheat and oats, and on fruits and vegetables.

A class for farmers to exhibit corn and prizes to be given will be added. The corn contest heretofore has been for the boys, and this year the older men are to be taken in, so as to have competition between the fathers and sons to see who can raise the best corn.

A breeders' class for boys, who have been winning first places in the corn contest show for the past three years, will be another new feature of the show this year, and these boys will not compete with the other boys in the regular classes.

In the domestic science contests a bread judging contest for the girls will be added. There will also be an exhibit of bread making by the women of the county, which will be a new feature of this contest. So in domestic science the girls will compete with their mothers to see who can bake the best bread.

The agricultural and domestic science show is to be much larger and on a bigger scale this year than heretofore. A greater amount of funds will have to be raised.

ARE FAR SUPERIOR.

Why Women Get Along Better With Chickens Than Men Do.

In the current issue of Farm and Fireside a poultry expert says that for many years he has observed that women are far superior to men in raising and caring for poultry. He goes on to say:

"The average farmer is a busy man. Hen raising is but an indifferent, neglected side line with him, that he knows and care but little about.

"The result is that when eggs bring the best prices his hens do not lay. The great need of controlling their moulting is unknown to him, so his hens moult at the wrong season. They roam at large, steal their nests and brood according to their moods, which is always to his disadvantage. Chicks receive no attention, and many perish. He lives and dies without realizing that the hen business is much like his pocketbook. If he would take money out of it he must put money in it.

"With a woman conditions are the opposite. The care of hens is no side line. It is her business, and she considers her business seriously and studiously. She expends her time, money, labor, patience, care and affection on her hens. She lives much with them; she broods over them, watches and pets them, names them and calls them by name; she strokes their feathers and talks to them as to a person. She studies her poultry books, magazine market reports, her hens, their conditions and the difficulties confronting her. She gives her poultry an abundance of feed and water. She is always watchful of every mood, condition and symptom of her daily companions. If disease invades her kingdom, she knows it at once. She isolates the ones affected. She has a hospital. She is a nurse by nature and a hen physician by study.

"Are her hens appreciative? Watch her feeding them. They enjoy her society. They appear to be trying to talk to her. They perch on her shoulder, eat out of her dish or hand and flock about her until she can hardly take a step. But that is not all; it is but a small part—just the beginning. When eggs stand high in the market reports, her hens show full appreciation of her investment in them, in kindness, care, patience, devotion, affection. And when the markets call for fries and broilers, money flows on her way."

DRYS LOST A SENATE FIGHT.

Resolution Indorsing Prohibition of Shipment Into Dry Counties is Pigeonholed.

Jefferson City, Jan. 29.—The first tilt between the "wet" and "dry" forces of the senate occurred today and resulted in a victory for the "wets." Senator Craig of Nodaway offered a resolution indorsing a bill pending in congress which prohibits the shipment of intoxicants into prohibition or local option territory and moved its adoption. A similar resolution was adopted by the house.

Senator Gardner of St. Louis said it would violate all senate precedents to act on such a resolution until after it had been referred to a committee. Then he moved that it be sent to the committee on criminal jurisprudence.

Senator Casey of Kansas City and Senator Beaven of Fulton said they did not believe in the Missouri senate seeking to interfere with measures pending before congress. They favored Senator Gardner's motion.

Senator Dunwoody thought the resolution was an entirely proper one and should be adopted. A viva voce vote resulted in the resolution being referred, and it may not be heard of again.

Cleanliness.

Many diseases cause infection of the sputum or spital. When this infected sputum is deposited where it may evaporate, dry, and turn to dust, the little particles of dust contain the germs of the disease in quesetion. This dust is carried about from place to place in the house by currents of air and may serve to infect those who breathe it. The diseases spread through the sputum are tuberculosis, measles, mumps, scarlet fever, diphtheria, cerebro-meningitis, infantile paralysis, influenza, tonsilitis and others.

When speaking of cleanliness, it should be understood that this germ-laden dust is the dirt that is to be dreaded. Cleanliness, then means care in the guarding of bacteria and in preventing the spread of bacteria by excreta. The ordinary dirt such as the soil, ashes, etc., which is brought into the house on the feet or is blown in, is practically harmless.

RIVER AND HARBOR BILL IS PASSED

Measure Carries Appropriation of $40,800,000.

CALLAWAY MAKES PROTEST.

His Objection to Intercoastal Canal Project is Voted Down—Jones of Virginia Attacks Philippine Government—Many Million Dollars Spent.

Washington, Jan 29.—After days of spirited debate the house passed the rivers and harbors appropriation bill, carrying $40,800,000, without an important amendment.

A motion by Representative Callaway to recommit the bill with instructions to limit expenditures for the Atlantic intercoastal canal project was voted down, 160 to 82.

"This measure," said Callaway, just before the vote on the bill, "is a scheme to rifle the treasury of the United States, and if the people knew of it they would kick the men responsible out of this house."

Humphreys (Miss.) and Sparkman (Fla.) defended the committee which framed the bill.

Speaker Clark has addressed letters to Democratic members of the house appealing to them to attend sessions regularly and aid in getting through important business before March 4. The speaker declares it would be a reflection upon the Democratic majority if the great supply measures should go over to the extra session.

Attack on Philippine Government.

American administration in the Philippines was described as tyrannical in a speech by Representative Jones (Va.), chairman of the insular affairs committee, and author of the Philippine independence bill.

Denouncing the action of Governor General Forbes in expending public revenues "as his sole judgment seemed desirable," Jones declared "many an official has been impeached for less than this."

Jones spoke in reply to a speech by President Taft at the Ohio society dinner in New York last Saturday, in which he was quoted as saying that passage of the Jones bill would result in a "mess and a muss," and that the United States should treat the Philippines as Great Britain treats Canada and Australia.

Jones asserted that the government of the Philippines was not comparable in any way to those of Canada and Australia.

Many Millions Spent.

Jones said what naval and military operations on account of the Philippines had cost the United States probably never would be known, but that $600,000,000, the estimate of the late Senator Hoar, probably was nearer correct than recent official estimates.

The opposing view of some Democrats of the house was voiced by Representative Sherley (Ky.), who argued the Filipino people were not ready for independence, and he did not believe congress could set any date when they would be. He declared that if the charges made by Representative Jones were true, officers of the American and Philippine governments should be dealt with for violation of the trust reposed in them.

FREMONT HEARING CLOSES

Two Ministers Testify for Accused Lawyers, Dolezal and Button.

Fremont, Neb., Jan. 29.—The state bar commission's session to hear the charges against Attorneys Dolezal and Button closed and adjournment was taken to Feb. 14 at Lincoln, when argument will be heard.

Rev. I. W. Correy of the Baptist church and Rev. W. H. Frost of St. James' church testified they heard Attorney Button refer to the satchel and blood stains, alleged to have been tampered with, in his closing argument. Rev. Mr. Frost, who was Rogers' spiritual adviser, testified that he discovered the bloodstains in the satchel and that they were even more distinct during the district court trial than they are now. Attorneys Button and Dolezal on the stand swore that they did not place any substance in the satchel.

Warren Elected Senator Fifth Time.

Cheyenne, Wyo., Jan. 29.—Senator Francis E. Warren received his fifth election to the United States senate at the hands of the Wyoming legislature when both houses gave him a majority over his Democratic opponent, John B. Kendrick. The vote in the senate was 16 for Warren and 11 for Kendrick; in the house, 29 for Warren and 27 for Kendrick. Representative E. H. Manson, who has championed the Progressive cause, refused to cast his vote for either candidate.

Carnations Worn in Honor of McKinley

Washington, Jan. 29.—Today is "McKinley day" in Washington and in many states carnations are being worn in honor of the former president. The carnation was President McKinley's favorite flower and since his death it has been worn each year as a tribute to his memory.

Capital of Peru Without Bread.

Lima, Peru, Jan. 29.—The Peruvian capital is practically without bread. All the bakers in the city joined the general strike of factory employees and other workmen, which began early in January.

KIMMEL CLAIMANT IN JAIL

"Man of Mystery" Is Charged With Forgery.

Bowling Green, Mo., Jan. 29.—A man in the county jail here on a forgery charge, who asserted in a lucid interval that he was George Kimmel, "the man of mystery," was identified as the one who recently figured in the famous identity case in St. Louis.

Sheriff W. R. Hawkins of Pike county received a photograph of Kimmel from Dr. Wood of St. Joseph, Mich., who once attended Kimmel at Niles. The photograph, says the sheriff, undoubtedly is a picture of the man now in prison.

The sheriff also received a letter from Mrs. Frances Fox of Niles, a cousin of Kimmel, in which she said that from descriptions sent to her by Sheriff Hawkins, she was sure the prisoner is the man who claimed to be her cousin.

The man was arrested Jan. 9 on a charge of passing a forged check on a Louisiana (Mo.) merchant. The name signed to the check was that of William Conrad, a Louisiana dry goods dealer. It is charged that "Kimmel" gave the check in payment of a bill of dry goods.

The prisoner is seriously ill and most of the time his memory wanders.

COURT PROBES IOWA SECURITY AFFAIRS

Judge Thornell Hears Application for Receiver of Concern.

Council Bluffs, Ia., Jan. 29.—The application for a receiver of the Iowa Security company, an auxiliary of the Western Mutual Life Insurance company, claimed to be especially designed to look after the agency business of the other company, occupied the attention of Judge Thornell all day.

The suit was brought by Victor P. Laustrup, a local old line insurance agent, who acquired $500 worth of Security stock in a trade deal and quickly became doubtful as to its value. His investigations, he claims, led to the present suit and appeal for the winding up of the affairs of the company on the grounds that the more than $100,000 cash received for the sale of the company's stock is being dissipated and wrongfully used to pay the salaries of the employees and officers and the running expenses of the concern.

NELSON CITED FOR CONTEMPT

Owner of Kansas City Star Says He Welcomes Action of Court.

Kansas City, Jan. 29.—William R. Nelson, editor and owner of the Kansas City Star, was cited by the circuit court of Jackson county to show cause why he should not be adjudged in contempt for a publication in his paper which stated that three attorneys were awarded $60 each as fees for a divorce suit which was dismissed in the circuit court without coming to trial. The article stated that the fee was granted in a ruling by Judge Guthrie of that court.

The Star recently has printed numerous articles charging delays of justice in the courts and pointing to alleged improper acts by attorneys and criticising court procedure.

"I welcome this action and the bringing of the matter to an issue," was Mr. Nelson's comment as he accepted service.

Profits on De Luxe Editions Large.

Chicago, Jan. 29.—That the sale of $60,000 worth of "valuable art objects" to E. P. Clark of Los Angeles netted the Tomlinson-Humes company, dealers in "de luxe" books and bric-a-brac, a profit of more than 75 per cent was averred in a petition filed in the superior court of Cook county. Ira Eaton, a partner in the concern, sought to enjoin his associates from disposing of any property until a settlement of partnership accounts can be effected.

More Athletes Under Fire.

New York, Jan. 29.—The confession of James Thorpe, the "world's greatest athlete," that he played baseball as a professional in 1909 and 1910, will result in an investigation of several other "college men from the north," who, Thorpe says, played in the same league. James E. Sullivan, secretary of the Amateur Athletic union, so announced.

Books of Former Clerk Short.

Carroll, Ia., Jan. 29.—The accounts of John Grelch, former clerk of the district court, who committed suicide Jan. 12, were short $5,317, according to the report of an expert accountant, to the board of supervisors. Grelch killed himself while his books were being examined by a committee of the board.

Minnesota Senate Rejects Bill.

St. Paul, Jan. 29.—By a vote of 33 to 30 the Minnesota state senate rejected a bill proposing a constitutional amendment giving women the right to vote. During a speech against the measure there was hissing from women in the gallery, but this was discontinued by a threat to clear the galleries.

Bicycle Riders on Even Terms.

Kansas City, Jan. 29.—At the end of the first eight hours of the six-day bicycle race, eight of the nine contesting teams were on even terms, having covered 176 miles 1 lap. One team, composed of W. Beck and William Morton, both of Newark, N. J., was three laps behind.

STRIKERS AND DEPUTIES CLASH

One Killed, Twelve Hurt in Fight at Rankin, Pa.

MARCHING FORCES COLLIDE

Someone Throws Coal Into Crowd of Workers—Rioting and Shooting Ends When Officers Retreat—None of Employees Injured.

Pittsburgh, Jan. 29.—Deputy sheriffs and strikers from the Rankin plant of the American Steel and Wire company, a subsidiary of the United States Steel corporation, clashed, one man being killed and twelve persons being injured, several fatally. All the wounded except two deputy sheriffs and a policeman were spectators.

Not a striker was injured as far as can be learned. Among the injured are several women and a six-months-old child.

The deputy sheriffs and strikers collided on Hawkins avenue, one of the principal streets of Rankin borough, which adjoins this city. The county officers, armed with revolvers and rifles, and the strikers, armed with revolvers and stones, battled for one hour within an area of two street squares.

Deputies Retreat Within Fence.

The rioting and shooting ended when the deputy sheriffs retreated within the fence of the mill.

The dead man, George Kozely, was shot twice in the stomach. Fritz Beck, shot in the head, is dying. Anna Leba, Charles Benson and Anton Andisk received dangerous wounds.

Rankin, the scene of the riot, is almost directly across the Monongahela river from Homestead, where the great steel riots of 1892 occurred. The trouble is the first serious mill riot since that time.

The strikers, numbering 300, held a meeting in a public hall to consider the situation. When they left the hall they posed for a newspaper picture, and then separating into small groups walked down Hawkins avenue. About the same time eighty deputy sheriffs, headed by Sheriff Bruff, Burgess Milligan of Rankin and Chief of Police Barnett, left the wire mill and marched toward Hawkins avenue. The two forces met and stopped. A coal wagon passed, the negro driver yelling lustily at his mules.

Coal Hurled at Strikers.

Some one picked a piece of coal from the wagon and threw it into the crowd of strikers. Within a moment the riot was on.

In a twinkling the air was filled with coal, stones and bullets. The deputies fired a number of volleys with their revolvers, but were forced back to the mill. The deputies emerged from the mill in about fifteen minutes armed with guns loaded with buckshot. The battle promptly was renewed. Almost every window facing Hawkins avenue for a distance of three squares was broken and several persons in the houses were injured. The crash of the guns, breaking glass and screams of men and women infuriated the strikers. They charged the deputies desperately and the latter again retreated behind the mill walls, taking with them the wounded deputy sheriffs and the Rankin chief of police.

Wthin a short time the man killed had been sent to the morgue, the seriously injured to hospitals or their homes and the borough became quiet.

POLICE DEFEAT SUFFRAGISTS

Women Who Try to Enter Parliament Building Arrested.

London, Jan. 29.—As a protest against the withdrawal of the franchise bill by the government, the suffragists resumed their militant tactics. While a deputation, which the chancellor of the exchequer, David Lloyd George, had refused to see, was trying to force its way into parliament against an overwhelming force of police, and the members were being placed under arrest for resisting the officers, other bands of women went through Whitehall breaking windows of the government offices, and through Cockspur, where the great plate glass windows in the establishments of shipping companies ruthlessly were smashed.

The women also visited Oxford, Regent and other streets in the shopping district, where similar damage was done. Later mail boxes were attacked, quantities of liquid being poured into them. In the outlying suburbs, too, the suffragists took steps to bring the cause before the public by damaging property.

Twenty-one women were arrested in the vicinity of the parliament building, but were allowed out on bail after the house rose. Most of the police stations had one or more prisoners charged with destroying property.

Miss Bowers Hurt; Car Strikes Horse.

Washington, Jan. 29.—Miss Martha Bowers, daughter of the late Solicitor General Lloyd Bowers, while horseback riding with Miss Helen Taft, was struck by a street car. Her horse was killed. Miss Taft, who escaped injury, aided in carrying her injured companion to a physician's office.

FIGHT FOR CONFIRMATIONS

Senate Filibuster Forces Issue Over Taft Appointments.

Washington, Jan. 29.—The fight over President Taft's appointments was on in earnest in the senate and for six hours Republicans and Democrats battled behind closed doors, the former demanding action and the latter filibustering to prevent it.

Democratic senators consistently refused to take up the nominations in regular order and professed themselves willing to take the blame for the delay in action on the 1,400 or more pending appointments. The opening of the Republican fight followed a caucus early in the day, at which it was determined to force the issue against the Democrats.

As a result of the development of the filibuster, intimations were given by Republican senators that the fight undoubtedly would extend into President elect Wilson's administration and be reflected in the senate's action on many of his appointments.

STOMACH STARVERS EAT ANYTHING NOW.

No Indigestion or Upset Stomach for "Pape's Diapepsin" Users.

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes afterwards.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching or undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain more than sufficient to thoroughly cure almost any case of dyspepsia, indigestion or any other stomach disorder.—Advertisement.

All Evidence of Impure Blood and a Run-Down Condition.

When the blood becomes thin, poor, devitalized nature cries out through such external and often painful evidence for help, and the safest, surest and most helpful remedy we know is Vinol.

This is because it is a combination of the two most world famed tonics—the medicinal curative elements of cod liver oil (without the oil) and tonic iron for the blood. Vinol strengthens the digestive organs, creates a hearty appetite, purifies and enriches the blood, creates strength.

Mary Lang of Altoona, Pa., says: "Ever since childhood, I have been delicate, and my blood poor, thin, and devitalized. Nothing seemed to help me until I took Vinol and it has built me up and made me strong."

We say positively there is nothing like Vinol to purify and enrich the blood and build up weak, run-down people. If it should fail in your case we will return your money. Orear-Henry Drug Co., Maryville, Mo.,—Advertisement.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not know the value of Sage and Sulphur for keeping the hair dark soft and glossy and in good condition. As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

WILL BE BIGGER

MORE PRIZES AND ADDED CLASSES TO COUNTY CONTEST.

AND IT WILL COST MORE

Corn and Domestic Science Contests Next Fall Will Have Added Features and Be On Bigger Scale.

A meeting of the Nodaway county agricultural and domestic science board of directors was held Tuesday afternoon in the office of County Superintendent Oakerson for the purpose of talking over plans for the annual boys' corn show and the girls' domestic science contest to be given in Maryville about the first of November. All of the boys and girls in the county are eligible. Those attending the meeting were Prof. Oakerson, Miss Hettie Anthony, Prof. John E. Cameron, James B. Robinson, George L. Wilfley, Joseph Jackson, Jr., and Paul Sisson.

The number of prizes in the different classes for the corn contest are to be increased, so the committee decided.

Another new feature will be added to the show, and they will offer prizes to be given on small grains, wheat and oats, and on fruits and vegetables.

A class for farmers to exhibit corn and prizes to be given will be added. The corn contest heretofore has been for the boys, and this year the older men are to be taken in, so as to have competition between the fathers and sons to see who can raise the best corn.

A breeders' class for boys, who have been winning first places in the corn contest show for the past three years, will be another new feature of the show this year, and these boys will not compete with the other boys in the regular classes.

In the domestic science contests a bread judging contest for the girls will be added. There will also be an exhibit of bread making by the women of the county, which will be a new feature of this contest. So in domestic science the girls will compete with their mothers to see who can bake the best bread.

The agricultural and domestic science show is to be much larger and on a bigger scale this year than heretofore. A greater amount of funds will have to be raised.

ARE FAR SUPERIOR.

Why Women Get Along Better With Chickens Than Men Do.

In the current issue of Farm and Fireside a poultry expert says that for many years he has observed that women are far superior to men in raising and caring for poultry. He goes on to say:

"The average farmer is a busy man. Hen raising is but an indifferent, neglected side line with him, that he knows and care but little about.

"The result is that when eggs bring the best prices his hens do not lay. The great need of controlling their moulting is unknown to him, so his hens moult at the wrong season. They roam at large, steal their nests and brood according to their moods, which is always to his disadvantage. Chicks receive no attention, and many perish. He lives and dies without realizing that the hen business is much like his pocketbook. If he would take money out of it he must put money in it.

"With a woman conditions are the opposite. The care of hens is no side line. It is her business, and she considers her business seriously and studiously. She expends her time, money, labor, patience, care and affection on her hens. She lives much with them; she broods over them, watches and pets them, names them and calls them by name; she strokes their feathers and talks to them as to a person. She studies her poultry books, magazine market reports, her hens, their conditions and the difficulties confronting her. She gives her poultry an abundance of feed and water. She is always watchful of every mood, condition and symptom of her daily companions. If disease invades her kingdom, she knows it at once. She isolates the ones affected. She has a hospital. She is a nurse by nature and a hen physician by study.

"Are her hens appreciative? Watch her feeding them. They enjoy her society. They appear to be trying to talk to her. They perch on her shoulder, eat out of her dish or hand and flock about her until she can hardly take a step. But that is not all; it is but a small part—just the beginning. When eggs stand high in the market reports, her hens show full appreciation of her investment in them, in kindness, care, patience, devotion, affection. And when the markets call for fries and broilers, money flows on her way."

DRYS LOST A SENATE FIGHT.

Resolution Indorsing Prohibition of Shipment Into Dry Counties is Pigeonholed.

Jefferson City, Jan. 29.—The first tilt between the "wet" and "dry" forces of the senate occurred today and resulted in a victory for the "wets." Senator Craig of Nodaway offered a resolution indorsing a bill pending in congress which prohibits the shipment of intoxicants into prohibition or local option territory and moved its adoption. A similar resolution was adopted by the house.

Senator Gardner of St. Louis said it would violate all senate precedents to act on such a resolution until after it had been referred to a committee. Then he moved that it be sent to the committee on criminal jurisprudence.

Senator Casey of Kansas City and Senator Beaven of Fulton said they did not believe in the Missouri senate seeking to interfere with measures pending before congress. They favored Senator Gardner's motion.

Senator Dunwoody thought the resolution was an entirely proper one and should be adopted. A viva voce vote resulted in the resolution being referred, and it may not be heard of again.

NOTES OF THE NORMAL.

Rev. Will Shullenberger spoke to the men of the Normal this morning on the subject "Not More Men, But More Man." He was listened to with great interest, and the talk was certainly an unusually fine one. Rev. Shullenberger is a son of Mr. and Mrs. J. A. Srullenberger of South Walnut street, and is pastor of the First Christian church at Mexico, Mo.

M. Oakerson.

A telegram will be sent to Senator Craig and Representative Praisewater by the pastors from their members, containing a special message to them, expressing their interest and sanction in the county unit local option bill, and further expressing their earnest wish to be released from the saloon in our midst.

Cleanliness.

Many diseases cause infection of the sputum or spital. When this infected sputum is deposited where it may evaporate, dry, and turn to dust, the little particles of dust contain the germs of the disease in quesetion. This dust is carried about from place to place in the house by currents of air and may serve to infect those who breathe it. The diseases spread through the sputum are tuberculosis, measles, mumps, scarlet fever, diphtheria, cerebro-meningitis, infantile paralysis, influenza, tonsilitis and others.

When speaking of cleanliness, it should be understood that this germ-laden dust is the dirt that is to be dreaded. Cleanliness, then means care in the guarding of bacteria and in preventing the spread of bacteria by excreta. The ordinary dirt such as the soil, ashes, etc., which is brought into the house on the feet or is blown in, is practically harmless.

RIVER AND HARBOR BILL IS PASSED

Measure Carries Appropriation of $40,800,000.

CALLAWAY MAKES PROTEST.

His Objection to Intercoastal Canal Project Is Voted Down—Jones of Virginia Attacks Philippine Government—Many Million Dollars Spent.

Washington, Jan 29.—After days of spirited debate the house passed the rivers and harbors appropriation bill, carrying $40,800,000, without an important amendment.

A motion by Representative Callaway to recommit the bill with instructions to limit expenditures for the Atlantic intercoastal canal project was voted down, 160 to 82.

"This measure," said Callaway, just before the vote on the bill, "is a scheme to rifle the treasury of the United States, and if the people knew of it they would kick the men responsible out of this house."

Humphreys (Miss.) and Sparkman (Fla.) defended the committee which framed the bill.

Speaker Clark has addressed letters to Democratic members of the house appealing to them to attend sessions regularly and aid in getting through important business before March 4. The speaker declares it would be a reflection upon the Democratic majority if the great supply measures should go over to the extra session.

Attack on Philippine Government.

American administration in the Philippines was described as tyrannical in a speech by Representative Jones (Va.), chairman of the insular affairs committee, and author of the Philippine independence bill.

Denouncing the action of Governor General Forbes in expending public revenues "as his sole judgment seemed desirable," Jones declared "many an official has been impeached for less than this."

Jones spoke in reply to a speech by President Taft at the Ohio society dinner in New York last Saturday, in which he was quoted as saying that passage of the Jones bill would result in a "mess and a muss," and that the United States should treat the Philippines as Great Britain treats Canada and Australia.

Jones asserted that the government of the Philippines was not comparable in any way to those of Canada and Australia.

Many Millions Spent.

Jones said what naval and military operations on account of the Philippines had cost the United States probably never would be known, but that $600,000,000, the estimate of the late Senator Hoar, probably was nearer correct than recent official estimates.

The opposing view of some Democrats of the house was voiced by Representative Sherley (Ky.), who argued the Filipino people were not ready for independence, and he did not believe congress could set any date when they would be. He declared that if the charges made by Representative Jones were true, officers of the American and Philippine governments should be dealt with for violation of the trust reposed in them.

FREMONT HEARING CLOSES

Two Ministers Testify for Accused Lawyers, Dolezal and Button.

Fremont, Neb., Jan. 29.—The state bar commission's session to hear the charges against Attorneys Dolezal and Button closed and adjournment was taken to Feb. 14 at Lincoln, when argument will be heard.

Rev. I. W. Correy of the Baptist church and Rev. W. H. Frost of St. James' church testified they heard Attorney Button refer to the satchel and blood stains, alleged to have been tampered with, in his closing argument. Rev. Mr. Frost, who was Rogers' spiritual adviser, testified that he discovered the bloodstains in the satchel and that they were even more distinct during the district court trial than they are now. Attorneys Button and Dolezal on the stand swore that they did not place any substance in the satchel.

Warren Elected Senator Fifth Time.

Cheyenne, Wyo., Jan. 29.—Senator Francis E. Warren received his fifth election to the United States senate at the hands of the Wyoming legislature when both houses gave him a majority over his Democratic opponent, John B. Kendrick. The vote in the senate was 16 for Warren and 11 for Kendrick; in the house, 29 for Warren and 27 for Kendrick. Representative E. H. Manson, who has championed the Progressive cause, refused to cast his vote for either candidate.

Carnations Worn in Honor of McKinley

Washington, Jan. 29.—Today is "McKinley day" in Washington and in many states carnations are being worn in honor of the former president. The carnation was President McKinley's favorite flower and since his death it has been worn each year as a tribute to his memory.

Capital of Peru Without Bread.

Lima, Peru, Jan. 29.—The Peruvian capital is practically without bread. All the bakers in the city joined the general strike of factory employees and other workmen, which began early in January.

KIMMEL CLAIMANT IN JAIL

"Man of Mystery" Is Charged With Forgery.

Bowling Green, Mo., Jan. 29.—A man in the county jail here on a forgery charge, who asserted in a lucid interval that he was George Kimmel, "the man of mystery," was identified as the one who recently figured in the famous identity case in St. Louis.

Sheriff W. R. Hawkins of Pike county received a photograph of Kimmel from Dr. Wood of St. Joseph, Mich., who once attended Kimmel at Niles. The photograph, says the sheriff, undoubtedly is a picture of the man now in prison.

The sheriff also received a letter from Mrs. Frances Fox of Niles, a cousin of Kimmel, in which she said that from descriptions sent to her by Sheriff Hawkins, she was sure the prisoner is the man who claimed to be her cousin.

The man was arrested Jan. 9 on a charge of passing a forged check on a Louisiana (Mo.) merchant. The name signed to the check was that of William Conrad, a Louisiana dry goods dealer. It is charged that "Kimmel" gave the check in payment of a bill of dry goods.

The prisoner is seriously ill and most of the time his memory wanders.

COURT PROBES IOWA SECURITY AFFAIRS

Judge Thornell Hears Application for Receiver of Concern.

Council Bluffs, Ia., Jan. 29.—The application for a receiver of the Iowa Security company, an auxiliary of the Western Mutual Life Insurance company, claimed to be especially designed to look after the agency business of the other company, occupied the attention of Judge Thornell all day.

The suit was brought by Victor P. Laustrup, a local old line insurance agent, who acquired $500 worth of Security stock in a trade deal and quickly became doubtful as to its value. His investigations, he claims, led to the present suit and appeal for the winding up of the affairs of the company on the grounds that the more than $100,000 cash received for the sale of the company's stock is being dissipated and wrongfully used to pay the salaries of the employees and officers and the running expenses of the concern.

NELSON CITED FOR CONTEMPT

Owner of Kansas City Star Says He Welcomes Action of Court.

Kansas City, Jan. 29.—William R. Nelson, editor and owner of the Kansas City Star, was cited by the circuit court of Jackson county to show cause why he should not be adjudged in contempt for a publication in his paper which stated that three attorneys were awarded $60 each as fees for a divorce suit which was dismissed in the circuit court without coming to trial. The article stated that the fee was granted in a ruling by Judge Guthrie of that court.

The Star recently has printed numerous articles charging delays of justice in the courts and pointing to alleged improper acts by attorneys and criticising court procedure.

"I welcome this action and the bringing of the matter to an issue," was Mr. Nelson's comment as he accepted service.

Profits on De Luxe Editions Large.

Chicago, Jan. 29.—That the sale of $60,000 worth of "valuable art objects" to E. P. Clark of Los Angeles netted the Tomlinson-Humes company, dealers in "de luxe" books and bric-a-brac, a profit of more than 75 per cent was averred in a petition filed in the superior court of Cook county. Ira Eaton, a partner in the concern, sought to enjoin his associates from disposing of any property until a settlement of partnership accounts can be effected.

More Athletes Under Fire.

New York, Jan. 29.—The confession of James Thorpe, the "world's greatest athlete," that he played baseball as a professional in 1909 and 1910, will result in an investigation of several other "college men from the north," who, Thorpe says, played in the same league. James E. Sullivan, secretary of the Amateur Athletic union, so announced.

Books of Former Clerk Short.

Carroll, Ia., Jan. 29.—The accounts of John Grelch, former clerk of the district court, who committed suicide Jan. 12, were short $5,317, according to the report of an expert accountant, to the board of supervisors. Grelch killed himself while his books were being examined by a committee of the board.

Minnesota Senate Rejects Bill.

St. Paul, Jan. 29.—By a vote of 33 to 30 the Minnesota state senate rejected a bill proposing a constitutional amendment giving women the right to vote. During a speech against the measure there was hissing from women in the gallery, but this was discontinued by a threat to clear the galleries.

Bicycle Riders on Even Terms.

Kansas City, Jan. 29.—At the end of the first eight hours of the six-day bicycle race, eight of the nine contesting teams were on even terms, having covered 176 miles 1 lap. One team, composed of W. Beck and William Morton, both of Newark, N. J., was three laps behind.

STRIKERS AND DEPUTIES CLASH

One Killed, Twelve Hurt in Fight at Rankin, Pa.

MARCHING FORCES COLLIDE

Someone Throws Coal Into Crowd of Workers—Rioting and Shooting Ends When Officers Retreat—None of Employees Injured.

Pittsburgh, Jan. 29.—Deputy sheriffs and strikers from the Rankin plant of the American Steel and Wire company, a subsidiary of the United States Steel corporation, clashed, one man being killed and twelve persons being injured, several fatally. All the wounded except two deputy sheriffs and a policeman were spectators.

Not a striker was injured as far as can be learned. Among the injured are several women and a six-months-old child.

The deputy sheriffs and strikers collided on Hawkins avenue, one of the principal streets of Rankin borough, which adjoins this city. The county officers, armed with revolvers and rifles, and the strikers, armed with revolvers and stones, battled for one hour within an area of two street squares.

Deputies Retreat Within Fence.

The rioting and shooting ended when the deputy sheriffs retreated within the fence of the mill.

The dead man, George Kozely, was shot twice in the stomach. Fritz Beck, shot in the head, is dying. Anna Leba, Charles Benson and Anton Andisk received dangerous wounds.

Rankin, the scene of the riot, is almost directly across the Monongahela river from Homestead, where the great steel riots of 1892 occurred. The trouble is the first serious mill riot since that time.

The strikers, numbering 300, held a meeting in a public hall to consider the situation. When they left the hall they posed for a newspaper picture, and then separating into small groups walked down Hawkins avenue. About the same time eighty deputy sheriffs, headed by Sheriff Bruff, Burgess Milligan of Rankin and Chief of Police Barnett, left the wire mill and marched toward Hawkins avenue. The two forces met and stopped. A coal wagon passed, the negro driver yelling lustily at his mules.

Coal Hurled at Strikers.

Some one picked a piece of coal from the wagon and threw it into the crowd of strikers. Within a moment the riot was on.

In a twinkling the air was filled with coal, stones and bullets. The deputies fired a number of volleys with their revolvers, but were forced back to the mill. The deputies emerged from the mill in about fifteen minutes armed with guns loaded with buckshot. The battle promptly was renewed. Almost every window facing Hawkins avenue for a distance of three squares was broken and several persons in the houses were injured. The crash of the guns, breaking glass and screams of men and women infuriated the strikers. They charged the deputies desperately and the latter again retreated behind the mill walls, taking with them the wounded deputy sheriffs and the Rankin chief of police.

Wthin a short time the man killed had been sent to the morgue, the seriously injured to hospitals or their homes and the borough became quiet.

POLICE DEFEAT SUFFRAGISTS

Women Who Try to Enter Parliament Building Arrested.

London, Jan. 29.—As a protest against the withdrawal of the franchise bill by the government, the suffragists resumed their militant tactics. While a deputation, which the chancellor of the exchequer, David Lloyd George, had refused to see, was trying to force its way into parliament against an overwhelming force of police, and the members were being placed under arrest for resisting the officers, other bands of women went through Whitehall breaking windows of the government offices, and through Cockspur, where the great plate glass windows in the establishments of shipping companies ruthlessly were smashed.

The women also visited Oxford, Regent and other streets in the shopping district, where similar damage was done. Later mail boxes were attacked, quantities of liquid being poured into them. In the outlying suburbs, too, the suffragists took steps to bring the cause before the public by damaging property.

Twenty-one women were arrested in the vicinity of the parliament building, but were allowed out on bail after the house rose. Most of the police stations had one or more prisoners charged with destroying property.

FIGHT FOR CONFIRMATIONS

Senate Filibuster Forces Issue Over Taft Appointments.

Washington, Jan. 29.—The fight over President Taft's appointments was on in earnest in the senate and for six hours Republicans and Democrats battled behind closed doors, the former demanding action and the latter filibustering to prevent it.

Democratic senators consistently refused to take up the nominations in regular order and professed themselves willing to take the blame for the delay in action on the 1,400 or more pending appointments. The opening of the Republican fight followed a caucus early in the day, at which it was determined to force the issue against the Democrats.

As a result of the development of the filibuster, intimations were given by Republican senators that the fight undoubtedly would extend into President elect Wilson's administration and be reflected in the senate's action on many of his appointments.

Man Frightened to Death.

Milwaukee, Jan. 29.—"Frightened to death" was the verdict in the death of William Youngquist, a saloon keeper, who died while his son-in-law, Henry Koelpin, and Charles Showman were attempting to get into the place. The two men, it is said ordered Youngquist to let them in so they could "clean up the place." When Youngquist refused a gun was fired. Youngquist fell to the flood dead, although the bullet did not touch him.

All Evidence of Impure Blood and a Run-Down Condition.

When the blood becomes thin, poor, devitalized nature cries out through such external and often painful evidence for help, and the safest, surest and most helpful remedy we know is Vinol.

This is because it is a combination of the two most world famed tonics—the medicinal curative elements of cod liver oil (without the oil) and tonic iron for the blood. Vinol strengthens the digestive organs, creates a hearty appetite, purifies and enriches the blood, creates strength.

Mary Lang of Altoona, Pa., says: "Ever since childhood, I have been delicate, and my blood poor, thin, and devitalized. Nothing seemed to help me until I took Vinol and it has built me up and made me strong."

We say positively there is nothing like Vinol to purify and enrich the blood and build up weak, run-down people. If it should fail in your case we will return your money. Orear-Henry Drug Co., Maryville, Mo.—Advertisement.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not know the value of Sage and Sulphur for keeping the hair dark soft and glossy and in good condition. As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.
